## Verbal Description:

fraction of base of pierced censer, with portions of 3 vents. ~~the~~ wall thickness is 0.6 cm. first vent is 1.0 cm, the second is 0.9 cm, not enough of the third to measure. Interior surface is fairly smooth with burning on it. Exterior surface is rough and oddly discolored. In center it is black (possible fire cladding), close to the vents it is a red color. The black color goes into middle of the wall like a firing core. It looks like the vents were made ~~by~~ by pushing through from interior to exterior. ~~The~~ looks like a clay lip was formed but then chipped ~~out~~ off.
